Contents of Volume 25

No. 1

A.C. Jackson, D.L. Reimer and W.H. Wunner (U.S.A.)
Detection of rabies virus RNA in the central nervous system of experimentally infected mice using in situ hybridization with RNA probes 1

J.M. Ossewaarde and A.D. de Booij (The Netherlands)
Development of a monoclonal antibody for use as an amboreceptor in complement fixation tests 13

W.F. Carman, C. Williamson, B.A. Cunliffe and A.H. Kidd (South Africa)
Reverse transcription and subsequent DNA amplification of rubella virus RNA 21

T-C. Wu and P. Mounts (U.S.A.)
Sensitive detection of nucleic acids and protein of human papillomavirus type 6 in respiratory and genital tract papillomata 31

M.R. Hajimorad and R.I.B. Francki (Australia)
Preparation of soluble, biologically active alfalfa mosaic virus coat protein and its $CaCl_2$-induced degradation 49

P.J. Talbot, J. Lapierre, C. Daniel, R. Dugré and P. Trépanier (Canada)
Growth of a murine coronavirus in a microcarrier cell culture system 63

R.M. Armstrong and I.T.R. Barnett (U.K.)
An enzyme-linked immunosorbent assay (ELISA) for the detection and quantification of antibodies against swine vesicular disease virus (SVDV) 71

J.J. Chomel, D. Thouvenot, M. Onno, C. Kaiser, J.M. Gourreau and M. Aymard (France)
Rapid diagnosis of influenza infection of NP antigen using an immunocapture ELISA test 81

P.M. Kelly, M.R. Speight and P.F. Entwistle (U.K.)
Mass production and purification of *Euproctis chrysorrhoea* (L.) nuclear polyhedrosis virus 93

J.B. Katz, S.K. Hanson, P.A. Patterson and I.R. Stoll (U.S.A.)
In vitro assessment of viral antigen content in inactivated aluminum hydroxide adjuvanted vaccines 101

B. Wu, J. Mahony and M. Chernesky (People's Republic of China, Canada)
Comparison of three protein A-gold immune electron microscopy methods for detecting rotaviviruses 109

A. Thomson, G. Davis, J.M. Best and J.P. Whiteside (U.K.)
Growth of rubella virus in a glass bead propagator (Short Communication) 119

No. 2

G. Giljam and B. Wahren (Sweden)
properties of IgG subclasses to human cytomegalovirus 139

F. Poul and J. Dunez (France)
Production of use of monoclonal antibodies for the detection of apple chlorotic leaf spot virus 152

S.-H. Döpel, t. Porstmann, P. Henklein and R. von Baehr (G.D.R.)
Fine mapping of an immunodominant region of the transmembrane protein of the human immunodeficiency virus (HIV-1) 167

J.P. Clewley (U.K.)
The polymerase chain reaction, a review of the practical limitations for human immunodeficiency virus diagnosis 179

R.H. Boerman, E.P.J. Arnoldus, A.K. Raap, B.R. Bloem, M. Verhey, G. van Gemert, A.C.B. Peters and M. van der Ploeg (The Netherlands)
Polymerase chain reaction and viral culture techniques to detect HSV in small volumes of cerebrospinal fluid; an experimental mouse encephalitis study 189

W.P. Mowat, S. Dawson and G.H. Duncan (U.K.)
Production of antiserum to a non-structural potyviral protein and its use to detect narcissus yellow stripe and other potyviruses 199

L. Mimms, A. Goetze, S. Swanson, M. Floreani, B. Edwards, J. Macioszek, G. Okasinski and W. Kiang (U.S.A.)
Second generation assays for the detection of antibody to HBsAg using recombinant DNA-derived HBsAg 211

C. Bruce, W. Al-Nakib, M. Forsyth, G. Stanway and J.W. Almond (Kuwait, U.K.)
Detection of enteroviruses using cDNA and synthetic oligonucleotide probes 233

No. 3

D.J. Wood, J.C. de Jong, K. Bijlsma and H.G.A.M. van der Avoort (U.S.A., The Netherlands)
Development and evaluation of monoclonal antibody-based immune electron microscopy for diagnosis of adenovirus types 40 and 41 241

Y. Aboudy, I. Shif, I. Silberstein and T. Gotlieb-Stematsky (Israel)
Efficiency of isolation of human rotavirus in primary African Green monkey kidney cells 251

G.F. Rowland, D.J. Engelbrecht, E.J. Pool, E.C. Schmollgruber, G.J. Thompson and K.J. van der Merwe (Republic of South Africa)
The use of peroxydase anti-peroxidase (PAP) complexes in the detection of plant viruses by ELISA 259

C.J. O'Loan, G. Allan, C. Baxter-Jones and M.S. McNulty (Ireland)
An improved ELISA and serum neutralisation test for the detection of turkey rhinotracheitis virus antibodies 271

B.G. Corsaro, J. DiRenzo and M.J. Fraser (U.S.A.)
Transfection of cloned *Heliothis zea* cell lines with the DNA genome of the *Heliothis zea* nuclear polyhedrosis virus 283

J.E. Brinchmann, G. Gaudernackm E. Thorsby, T. Øystein Jonassen and F. Vartdal (Norway)
Reliable isolation of human immunodeficiency virus from cultures of naturally infected $CD4^+$ T cells 293

J.R. McCarrey, J.C. Kaufman, M.A. Churchill and J.A. Zaia (U.S.A.)
Differential detection of viral DNA and RNA in situ in cells infected with human cytomegalovirus 301

P. Walpita, J.D. Connor and D. Pfeifer (U.S.A.)
Protein fingerprinting: a novel virus identification system 315

P. Rakoczy, T. Demeter, L. Hutchinson, G.F. Sterrett, E.C. Pixley and J.K. Kulski (Australia)
Detection of human papillomavirus type 16 DNA in cervical swabs and formalin-fixed, paraffin-embedded squamous cell carcinomas of non-genital tissues using a synthetic oligodeoxynucleotide probe 325

T.G. Besselaar, N.K. Blackburn and N. Aldridge (Republic of South Africa)
Comparison of an antibody-capture IgM enzyme-linked immunosorbent assay with IgM-indirect immunofluorescence for the diagnosis of acute Sindbis and West Nile infections 337

D.R. Harper (U.K.)
A novel plaque assay system for paramyxoviruses (Short Communication) 347
